JNTU Hyderabad is a premier institution with academic and research-oriented programs offered through the constituent and affiliated colleges. To provide wide global exposure, JNTU Hyderabad has entered into few collaborative programs with International Universities.

About Alliance :

Due to the globalization and subsequent increase in outsourcing of pharmaceutical industry, the need for industry-ready pharmaceutical scientists is growing. Even though there is great pool of pharmaceutical talent, we have a big gap between pharmaceutical industry needs and skills of current pharmacy graduates. To bridge this gap, Alliance Institute of Advanced Pharmaceutical & Health Sciences (Alliance) was started in 2009 with a mission to prepare practice-ready professionals for pharmaceutical and health sciences industry. Alliance is offering first of a kind MS programs tailored to provide pragmatic training to students seeking careers in the pharmaceutical industry.

Why Alliance?

At Alliance, the curriculum is based on Indian and International academic standards and taught by experienced faculty from India and abroad. Alliance has state of the art classrooms with video conferencing facility to enable our faculty from USA to teach and interact with students. Alliance lab facility includes an exclusive HPLC lab, 12 station rotary tablet press, dissolution baths and disintegration apparatus, UV Vis-spectrophotometer etc., Alliance has comprehensive library with international journal access and computer lab to support research activities by our students.

Alliance also conducts Personality Development Programme to help students with communication skills, job interviews and placements. Over 85% of Alliance recent graduates have successfully been placed in jobs. The list of companies our students have been placed for a project or job include...Aurobindo, Aizant, Cheminova, Capricorn, Gland pharma, Hetero, Matrix. MSN labs, Natco, Rachem, Sipra labs, Shanta Biotech, Suven Nishta, Vista Labs, Vins Bio, Zenera.

Research Collaboration :

Alliance Institute also entered into research collaboration with Thomas J Long School of Pharmacy and Health Sciences, University of the Pacific, USA. This program is applicable to all Alliance students including students from Industrial Pharmaceutics program who fail to meet University of the Pacific admission/visa requirements. Alliance students have an option to do research work at the University of the Pacific to fulfill requirements for MS degree in India.

All programs are two year full time master's programs

Introducing

Masters in Pharmacy from USA

Alliance has joined hands with the University of the Pacific to offer
Masters (MS) program in Industrial Pharmaceutics
1st semester in India at Alliance and remaining courses and research in USA
at the University of the Pacific, California, USA.

About University of the Pacific, USA :

University of the Pacific, located in northern California, ranks in the top 100 among the 3000 national universities in the United States. University of the Pacific was founded in the mid-nineteenth century and it has a long history. There are three campuses: one is in Sacramento, one is in San Francisco and one is in Stockton. University of the Pacific offers academic programs in 10 different schools and colleges leading to bachelors, masters and doctoral degrees. Pharmacy and health sciences programs are offered at Thomas J. Long School of Pharmacy and Health Sciences located in Stockton.

University of the Pacific has been offering outstanding advanced graduate and professional programs for students in the US and all over the world for over 80 years. University of the Pacific has renowned faculty mentors, well-equipped laboratories and state-of-the-art resources.

JOINT MS PROGRAM IN INDUSTRIAL PHARMACEUTICS :

University of the Pacific has entered into collaboration with Alliance Institute, India, for offering masters (MS) program in Industrial Pharmaceutics. In this program students take courses in the first semester at Alliance and then go to USA to complete remaining courses and research at Thomas J Long School of Pharmacy and Health Sciences, University of the Pacific. Upon successful completion of the requirements, University of the Pacific will award them master's degree.
